A message to all Kiwanis Members:

We are living in difficult times with the effects of this Corona virus and the rapidly changing situation here in Australia.

Yes our meetings have stopped and most of our projects have been suspended and we have been advised to isolate ourselves and practise social distancing, but as Kiwanians there are and will be real needs out there in our Community.

While keeping ourselves physically apart, now is the time to be even more socially connected. Regular contact via all forms of electronic media and post with our Club Members, families, friends and neighbours can help the negative effects of isolation as we are all in this together.

Those messages and contacts and offers of support that you make are most important, particularly to those living alone, the single parent with children, and those that have lost their jobs etc.

Kiwanis Club Board meetings, the Australian District Board Meetings, and Club Elections can be held electronically and further details will be made available shortly.

We live in a lucky Country compared to the rest of the world and as we negotiate these difficult times we need to be ready to respond as Kiwanians do, by our actions not just words.

Please stay safe and keep in contact.

Ashleigh Gore
