

Kiwaniis – Children First Foundation Program

Kiwaniis supports Children First Foundation, an Australian charity providing life-changing and sometimes life-saving surgery for disadvantaged children from developing countries.

About Children First Foundation

Children First Foundation collaborates with exceptional health professionals to enable life-changing surgery and provide holistic care in Australia for disadvantaged children from developing countries. Their Miracle sMiles Program provides a holistic care model that recognises the child's emotional, cultural and physical need whilst in their care.

The Miracle sMiles Program facilitates surgery and pre-and post-surgical care for a range of congenital and acquired conditions including orthopaedic, cranio-facial, burns and plastics, renal and urology cases. The condition must be operable and unable to be treated in the child's country.

Children First Foundation receives no government funding for its activities and relies on the generosity of public, corporate, trust and foundation donations.

Kiwaniis Clubs around Australia support Children First Foundation's fundraising activities and by adding this program to our special causes, we seek public and corporate sector donations through the Give Now website.

Donations

Kiwaniis will direct 100% of your donation to Children First Foundation.

Individual, corporate or business donations are tax deductible.

Make a donation to this Kiwanis Foundation supported program to increase available funding towards improving the quality of life of these disadvantaged and chronically ill children. Please select your preferred payment option:

- Cheque payable to KADCF-Children First Foundation and mailing to Secretary, 4 Atherton Close, Aspendale Gardens, Vic 3195 **OR**
- Donate using the link on the web page

Kiwaniis is a global organization of volunteers dedicated to

improving the world one child and one community at a time.
