Describe how Kiwanis Funds were used:

How did Kiwanis funds better serve your program?

To assist us to better assess the value of the Kiwanis investment to your organization, using your best estimate, how many young people benefited from the allocation funding we provided?

Again, to assist us in being even more successful in our fundraising efforts and using your best estimates, if we were to assume that Kiwanis, over time, could increase your funding by (a) 50% and (b) 100%, to your organization, how many additional young people could your program serve?

(a) _____ (b) _____

Are the dollars Kiwanis provided such that an increased grant would allow your organization to make a substantial "leap forward" in the number of young people served or are the dollars utilized on a "straight" per capita basis?

Briefly describe the "Community" benefits Kiwanis funds provided:

Please provide a brief Budget Breakdown of Kiwanis funding expended:
