Bet You Didn't Know Per Pres. Tom Harvey

- Michael Jordan makes more money from Nike than all of the workers overseas make in wages.
- Shakespeare created the words "assassination" and "bump".
- Lions mate 50 times a day (*poor lion*).
- Catfish have 27,000 taste buds. (*Why? They only live in water and how many worms taste differently.*)
- Civil War newspaper reports were made on such cheap paper it turned yellow. The authors of these Reports, arguments for and against the war, were made by unknown authors which eventually led to the term yellow bellies.
