ANNOUNCEMENTS

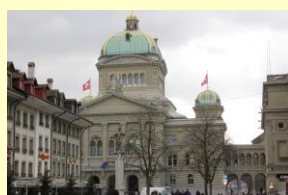

- **Bob Pasquarelli:** Thanks to those who worked in the Food Trailer Friday night at the Relay For Life: Bill Whipple who towed the trailer to the Bruno Stadium and back again, Eve Ward, Bryce Ginther, Peg Weiss, Craig Daniels, and both Linda and Lyndon Ellis. It was a cold night, so attendance was down, but as always, proceeds went to the Cancer Society.
- **Joe Behson:** Again I'm collecting anything from pennies to bills to checks in the Bucket for the EliMiNaTe Project. Let's fill it up!
- **Eve Ward:** Our Club Installation of Officers and Directors will be Monday, October 6th and guests are most welcome. Just let me know the number of people who will be eating. There will be hors d'oeuvres and a cash bar at 6 PM with family style dinner to follow.
- **John Brownrigg:** Last call for ordering the new Kiwanis shirts. Order must go in tomorrow, so see me tonight if you want one.
- **Bob Loveridge:** We will be visiting the Albany Medical Center Pediatric Trauma Unit this Thursday Sept 25th and will meet in the Main Lobby, (with the Pillars), at 5 PM. Signed up so far are **Weiss, Brownrigg, Patton, and Linda Ellis.** We don't want a large group but if you are interested seeing where our Bells of Life money goes, call me ASAP.
- **Peg Weiss:** Sorry to announce that Dick Johnsen's wife Carol had a bad fall down her cellar stairs, suffering fractures and a dislocated shoulder. Cards would be appreciated.

PROGRAM

Skip Patton gave an illustrated talk on his and Nancy's trip to Switzerland a few years ago. They flew into Zurich, toured Luzerne with its famous covered bridge over the lake, and rode a cable car up to the summit of Mt Pilates. A tour of Berne, the capital city, included the home of Albert Einstein with its original furnishings and tools. Einstein's notes were handwritten in a book, and his calculations were done on a slide rule. No computers then! The group rode the cog railway up to the little ski town of Engelberg, and another cable car ride took them to the top of Mt Titlis at 10,000 feet elevation for a great view of the Jungfrau, and a walk inside a living glacier. A two hour ride on

another cog railway took them to Interlaken. Skip's pictures of the fabulous snow covered Alps were breathtaking, and he emphasized the constant evidence of clocks in the country. They are one of the major industries; Swiss timepieces are known world-wide and almost all of them are analog with the familiar

face and hands.

Thanks for a very enjoyable program, Skip!
