

ELIMINATE

Kiwanis eliminating maternal/neonatal tetanus

Congratulations Kansas District...The totals are confirmed!

Kiwanis International confirmed today that the Kansas Kiwanis District has exceeded our \$844,000 by December 31, 2015.

The Kansas District did something that surprised everyone and we became only the second district in the world to complete our district goal during the active fundraising phase of the campaign. We exceeded our goal by \$5,000.00 and raised over \$849,000 in pledges and cash donations for the Eliminate Project. We have succeeded in saving over 471,800 lives with our efforts.

During the second week of December 2015, various challenges went out across the District to help raise the remaining \$5,000 to meet our goal. Members responded quickly and within two weeks we raised the needed funds.

Our sincere thanks to all of our clubs and members for all they have done and continue to do to save lives with our World Wide ELIMINATE Commitment. But the fight to Eliminate Maternal and Neonatal Tetanus continues as there are still 21 countries where MNT remains a threat to the lives of children. Our District still has 27 Model Clubs whom may need assistance in completing their pledges. Please make every effort to financially support their gallant efforts by supporting their local Eliminate fundraisers.

The District Eliminate Team members would like to send out a special thanks to the members of our 29 Model Clubs (two have fulfilled their pledges), Zeller Fellows, and Centennial Award recipients for going above and beyond to help the District exceed our goal. Every Kansas Kiwanian should be proud of this accomplishment. We are making a difference and saving lives!
