March 31

A memorial service for Glenn Foster was held Saturday at the Broadmoor Community Church. Glenn was 91.

We keep these people in our thoughts and prayers.

RF reminded us that this is the 97th anniversary of our national anthem, the Star-Spangled Banner. What a privilege it is to live in the land of the free and the home of the brave.

RF offered a morning prayer. Almighty God, observe this day these kindred souls that have gathered today in fellowship and service. Help us to remember the sacrifices that have been made throughout the history of our great nation, that we may be blessed today to live in a land of freedom and equal opportunity. Give us the vision to share our gifts with those less fortunate and to continue to provide opportunities for our youth and community. Lift up the spirits of those in pain and suffering that they may be whole again. Bless this food prepared for us this day and those that prepared it for us. Send us forth from this place with the strength to right wrong where we see it and to be examples of generosity and grace.

Ben Bellis, Jr led the Pledge of Allegiance.

## President Barb Broshous

Barb called the meeting to order at 8:00 am.

When out doing our weekly activities, Barb encourages us to invite one stranger to our Kiwanis meetings - tell them about us and invite them to join us! Cards are available as handouts.

## VISITING KIWANIANs

Loyd Mowery, President of the Ute Pass - Woodland Park club said hello and introduced the other members of their club visiting today, Patty, Durham, Tom, and Kirk. They captured the traveling trophy. Welcome!

## GUESTS

President - Barb Broshous

President Elect - Larry Young

Immediate Past

President - RF Smith

Secretary - Mike Luginbuhl

Treasurer/ CFO - Jack Fry

Sergeant-at-Arms - Steve Keefer

VP - Programs - Benny Nasser

VP - Memberships - Paul Short

VP- Fundraising - Joe Foreman

VP - Public Relations - Sharon  
Williams

VP - Service Leadership Program -  
Max Williams

We had a number of guest from The Church of Woodmoor.

## ANNOUNCEMENTS

Dir - Plans, Analysis, & Resources - Rich Rima

Dir - Special Needs - Rich Strom

Dir - Interclub & Social - Mark Silvanic

Special Thanks To

For the next few weeks, Bonnie Nasser is going to set up a little corner with a backdrop and some special lighting to take character portraits in black and white. Pictured above are Bill Kaelin and Doni Gourley. Bonnie suggests that it's always interesting if you want to bring a special hat (not a baseball hat). She will make a slide presentation and also make the digital files available to anyone who wants them for their files or to print.

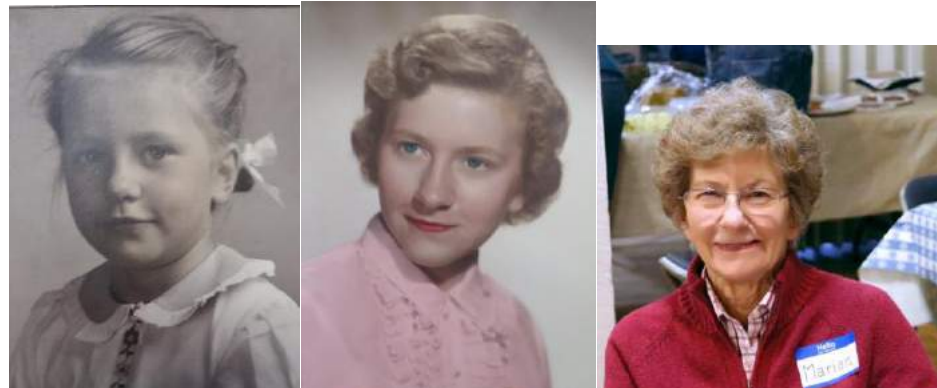

## HAPPY BUCKS

Postponed due to the length of today's program.

There are two free, easy ways to donate money to the MHKC - **without paying a nickel out of your own pocket.** One is by getting a gift card (available from Mike Wangeman that comes with \$5 credit) for Safeway or Kings Soopers. You can then indefinitely add money to the card. Also, at Amazon.com Smile, you can designate Monument Hill Service Club as your charity organization and purchase items through Smile. Then Amazon donates .5% of all your purchases to our club. Shop at: <https://smile.amazon.com/ch/84-6113536> and Amazon donates to Monument Hill Service Club.

## BIRTHDAYS

Jim Taylor told us of member birthdays for next week.

K-News Editor

Just so ya know, Jim told us:

March 8 is the 67th day of the year.

67 is the largest prime which is not the sum of distinct squares.

Jim's final thought: As I get older...

These days, "On Time" is when I get there.

Lt. General Ben Bellis was born in Wheatland, Wyoming, in 1924. He graduated high school from Lingle, Wyoming. From the U.S. Military Academy in 1946 he graduated with a bachelor's degree in Military Engineering And was commissioned as 2nd Lieutenant with pilot wings. He earned a Master's degree in Aeronautical Engineering from University of Michigan in 1952. He also has a Master of Science Degree in Business Administration from George Washington University in 1965. He completed the Executive Program of the Graduate School of Business at University California in Berkeley. In 1958, he graduated from Air Command and Staff College at Maxwell AFB, Alabama. In 1964, he entered Industrial College of Armed Forces at Fort Lesley J. McNair, in Washington, D.C.

With all of his education, he was assigned to Strategic Air Command at Ft. Worth, Texas. From 1947-1950 he went to the Armed Forces Special Weapons Project in Sandia Base, New Mexico. He became the project officer on TM-61B Matador weapons system in Directorate of Systems Management, Headquarters Air Research and Development Command. In January 1960, he was appointed chairman of configuration control board for Atlas Ballistic Missile Division program. In 1961, he later was assigned to Headquarters Air Force Systems Command at Andrews AFB, Maryland. Assigned to Aeronautical Systems Division, Wright-Patterson AFB, Ohio in 1965, he was a Deputy Director of F-12/SR-71 Systems Program Office. In 1968, he was the Deputy Reconnaissance and Electronic Warfare. In 1969, he was appointed the director of the F-15 systems program. In 1974, he was the Commander of Electronic Systems Division of the Air Force Systems Command at Hanscom AFB, Massachusetts. Later in 1974, he was transferred to Sembach Air Base, in Germany as Commander of the 17th Air Force. In 1977, he became commander of Sixth Allied Tactical Air Force in Izmir, Turkey. By 1978, he became Vice Commander in Chief, U.S. Air Force in Europe.

His many Decorations and Awards include : Command Pilot, Master Missileman Badge, Distinguished Service Medal with oak leaf cluster, Legion of Merit with oak leaf cluster, Air Force Commendation Medal with oak leaf cluster, Air Force Outstanding Unit Award(F-12/SR-71), Air Force Organizational Excellence Award(F-15). Recognized with Air Force Association Wright Memorial Chapter Aerospace Power Award, Air Force Association Distinguished Award for Management(1974). Promoted to Lieutenant General in July 1 1977. Lt. General Benjamin N. Bellis retired in August 1,1981.

The Blackbird is the highest, fastest airplane ever developed for an operational mission. It flew at 80K+ feet and at a speed of Mach 3+. It took one hour and 15 minutes to travel coast to coast. This airplane flew in continuous afterburner with a fuel temperature of 650 degrees inside the fuel tank. The fuel, JP-7, was easily contaminated by brass and required special handling. Skin temperature while flying at altitude reached 2,000 degrees F. In place of the traditional axial flow engine, a high bypass fan engine was developed for the propulsion system - supersonic air outside and subsonic air in the engine. This bypass engine increased engine thrust. The sensor systems were a high-resolution camera, a side looking radar and electronic collection sensors.

With a design similar to the SR-71, the YF-12A was planned as an air defense platform - fire control radar and two internal anti-air missiles. Tremendous capabilities with "look down, shoot down," but the high operating cost was prohibitive.

After the running SR-71 program, Ben took over project management of the F-15 program and was asked to run it the way he had run the SR-71 program. Ben was able to accomplish this by ensuring the "layers of management oversight" did not interfere with accomplishing program milestones and objectives, with the backing of senior leadership (in the person of Dave Packard).

Interestingly, a high bypass fan engine was also developed for the F-15 with increased thrust as a design objective. The F-15 was planned for high maneuvering air-to-air operations, but some hard braces were included in the wings just in case an air-to-ground version was needed. Low wing loading was a key aerodynamical feature to increase maneuverability. Composite materials were an important component of the F-15, and were less expensive because of their widespread use in consumer goods and new airplanes. Heads-up display in the cockpit was another key component in this single seat airplane. A two seat air-to-ground fighter was eventually developed, the F-15E.

Ben's explanation of all this information made perfect sense because he wove together a fascinating story that involved two very complex engineering and historical topics, the SR-71 and the F-15. Our thanks to Ben for reintroducing this subject to the club!
