**'TIS THE SEASON FOR DANDELIONS!!! Do you know why Dandelions are named after Lions?**

The English had long called the dandelion a *lion's tooth*, but in the 16th century, for some reason, they adopted the French name for the flower, *dent de lion*, which also means "lion's tooth". It remains a mystery as to why the English would choose to borrow a literal French translation of a perfectly good English expression and then proceed to mangle both the spelling and the pronunciation, but there it is.

But why would **both** the English and French call this flower, which is yellow but looks nothing like a lion's tooth, a **dandelion**? The name refers not to the flower itself but to the surrounding leaves which are deeply indented and resemble teeth. Now you know, and can impress your friends with this bit of trivia.
