**So I got my concealed gun permit yesterday...**

...and went over to the local Bass Pro Shop to get a small 9mm pistol for home protection.

When I was ready to pay for the gun and bullets, the cashier said "Strip down, facing me."

Making a mental note to complain to the NRA about the gun control wackos running amok, I did just as she had instructed.

When the hysterical shrieking and alarms finally subsided, I found out she was referring to how I should place my credit card in the card reader!

I've been asked to shop elsewhere in the future. They need to make their instructions to seniors a little clearer.

I still don't think I looked that bad.

### **I JUST discovered my age group! I am a Seenager.** (Senior teenager)

I have everything that I wanted as a teenager, only 50-60 years later.

I don't have to go to school or work

I get an allowance every month.

I have my own pad.

I don't have a curfew.

I have a driver's license and my own car.

The people I hang around with are not scared of getting pregnant, they aren't scared of anything, they have been blessed to live this long, why be scared?

And I don't have acne.

Life is Good! Also, you will feel much more intelligent after reading this, because you are a Seenager.

Brains of older people are slow because they know so much.

People do not decline mentally with age; it just takes them longer to recall facts because they have more information in their brains.

Scientists believe this also makes you hard of hearing as it puts pressure on your inner ear.

Also, older people often go to another room to get something and when they get there, they stand there wondering what they came for. It is NOT a memory problem; it is nature's way of making older people do more exercise.

SO THERE!
